

Ferrari 348 TB

Ferrari 348 TB

- Ferrari 348 tb with 5-speed manual transmission
- 3.4-litre V8 petrol engine
- Good original, unrestored condition
- Extensively documented mileage of 53,068 km
- Formerly owned by the workshop manager of Garage Francorchamps – Ferrari / Jacques Swaters
- Service book and invoices present
- Austrian registration documents with E705 document
- Belgian Car-Pass present

The Ferrari 348 tb is one of the most recognisable Ferraris of the 1990s. Its sharp lines, wide rear end and characteristic side air intakes give it an unmistakable Ferrari appearance. The mid-mounted 3.4-litre V8, combined with the 5-speed manual transmission, delivers the pure and mechanical driving experience for which this generation is increasingly appreciated today.

This example was first registered on 8 August 1995 and is finished in Red. The car has a mileage of 53,068 km and, according to the inspection report, remains in good original, unrestored condition. The bodywork is original, the paintwork remains in its original colour and the underside also presents in original, good and honest condition.

This example also benefits from a special Belgian Ferrari provenance: the car was previously owned by the workshop manager of Garage Francorchamps, the renowned Ferrari dealership of Jacques Swaters.

The mileage history is extensively documented through the original service book, available invoices and the Belgian Car-Pass. The service book records several maintenance events and mileage readings, while the Car-Pass further complements the mileage history. The current mileage is 53,068 km.

The interior presents nicely and remains original, while the carpets are in very good condition. The headliner is currently loose and represents a minor cosmetic point of attention. According to the inspection report, the engine bay is in perfect original condition.

Mechanically, the car also presents particularly well. The engine is in perfect original condition, maintenance is up to date and all fluids are fresh. The clutch and manual transmission operate perfectly, as do the brakes and lighting. According to the inspection report, the battery will require replacement in the foreseeable future.

The car comes with Austrian registration documents, an E705 document, a Belgian Car-Pass, the service book and invoices.

Our Oldtimerfarm inspection team has prepared an inspection report for this vehicle.

Technical specifications

- Make: Ferrari
- Model: 348 tb
- Year: 1995
- First registration: 08/08/1995
- Engine: 3.4-litre V8 petrol engine
- Engine capacity: 3,405 cc
- Transmission: 5-speed manual
- Colour: Red
- Mileage: 53,068 km
- Chassis number: ZFFKA35B000088526
