VOID IF ALTERED

Description:
1966 Austin Healey Mark III BJ8. Frame off restoration 1985. All original, never in an accident, no rust, bondo or patches. Repair records from 1987. Runs great. Everything works including electric overdrive. New Stainless exhaust, new tires, fuel pump, clutch, starter, coil. Carbs professionally rebuilt. Great driver car or excellent solid original car for show quality restoration.

I'll send some pictures in groups because of the size. Let me know if you need more (I won't send all) and if they look good to you. As I have said, there is no serious rust. Just surface rust from sitting in my barn. Pictures also show new tires and new starter and fuel pump. I checked my records and in the past 23 years I owned the car I only put on about 900 miles.
