TO WHOM IT MAY CONCERN

DATING CERTIFICATE FOR VEHICLE REGISTRATION PURPOSES AND NO OTHER

1958 Mercedes-Benz 220 SE Convertible. Chassis No.128030109502060
Engine No. 127980

The Society has been requested to provide a dating certificate for the above vehicle. We are, therefore, able to confirm that the car is entirely representative of the 220 SE convertible model manufactured by Daimler-Benz AG of Stuttgart, Germany, in the 1958 model year and the serial numbers are correct for that year.

It should, therefore, be allocated a registration number which is commensurate with its 1958 year of manufacture - i.e. three letters and three numbers with no prefix or suffix letter and the Society is happy to support the application for this to be done.

The Society is on the DVLA's approved list of clubs considered competent to adjudicate on vehicle dating matters for registration purposes.
